

Wild Bird Seed Mixtures

"After many years we have found that Northern WBS1 Non cereal with added Triticale, suits our farm and does very well for us. We like this mixture as it consistently performs well every year for us here in Scotland."

Hugh Murrie
Haughs of Finavon
Forfar, Angus. 2017

SPRING SOWN MIXTURES

WBS 1 (AB9)

1 Year Spring Sown

Attracts Tree Sparrows

60%	Spring Barley
30%	Spring Triticale
5%	White Millet

(N) = Native Seed

Other mixture that also may be suitable for AB9:

Decoy Mixture – page 19

For ELS & HLS these mixtures must be agreed with the local Natural England Advisor before ordering seed.

Wild Bird Seed Mixtures

“Birchgrove Northern Star Mixture is a fabulous well balanced mixture that suits our needs of providing feed and cover on our shoot. The quinoa and the tic beans are great feeders for both the pheasants and the smaller birds. The kale, forage rape and yellow blossom clover provide us plenty of winter hardy cover for the birds too, if we manage it correctly we can get a second year out of the kale and yellow blossom clover.”

John Lewis, Birchgrove Estate, September 2017
